The traveler, who was asked by a clerical-looking fellow passenger—whether or not he drank, may have been justified, before answering, in asking whether the question was an inquiry or an invitation. But my advice to you, sub, is "Let not opportunity slip between your fingers." Take it, whenever such a query is put to you, as a preceding invitation, provided, sub, that there is within convenient reach a supply of

THE AUTOMATIC TELEPHONE.

For a good many years the Chicago  
public had ample opportunity to ob-  
serve what telephone monopoly meant  
in the way of service.The rates had been raised several  
times—and threats of another raise  
were being made. There was talk of  
abolishing certain forms of residence  
service. The public was treated with  
scant courtesy. There were intermin-  
able delays in changing old phones  
and installing new ones.Then came the automatic telephone,  
bringing with it the much needed  
spur of competition.What happened?  
Immediately the utmost efforts to  
improve the manual service were  
made.But it is a cold, hard fact that these  
efforts have been to a large degree  
unsuccessful. It is simply a physical  
impossibility to make manual service  
come anywhere near the remarkable  
efficiency of the automatic.The reason is obvious. The auto-  
matic is a higher development of the  
telephone principle.It has eliminated the huge cost and  
great uncertainty of the human  
operator.It has made telephoning secret,  
quick, low in cost.On the Automatic telephone a ma-  
chine—quick as lightning, absolutely  
accurate—gets your number for you.  
There are no hitches, no delays, no  
wrong numbers.Automatic telephone service has re-  
ceived a tremendous welcome in Chi-  
cago. Automatic service has doubled  
and doubled again until over 400,000  
calls per day are being handled.And all this in the face of one of  
the most powerful monopolies the  
world has ever seen.For better telephone service, phone  
for your Automatic today—Commercial
